Washing Machines,
Washer Dryers & Tumble Dryers

Hotpoint Washing & Drying

kitchen think

No one puts more thought into kitchens than Hotpoint. Look at our washing machines and washer dryers. 'A' rated wash performances, variable temperatures and spin speeds, and clever new washing and drying technologies create the perfect programme for all your clothes – from the finest lingerie to the first team football kit.

Save time and money

Life's too short to spend time doing the laundry, and too expensive to waste energy. So our washing machines and washer dryers feature programmes that more or less speak for themselves. Fast Wash, for instance, takes just 26 minutes to finish the job. Then there's Fast Forward, Time Saver, Mini Load, Reduce Creases. And to take good care of today's fabrics, our variable temperature washing machines offer economical 40°C 'A' Wash Performance.

Great results

You demand a great performance whatever the wash temperature – and our machines rise to the challenge. They all feature Powerstream™ Wash System which drives water through your clothes at speeds guaranteed to get them really clean. There are special programmes for items you'd usually hand wash, for silks, woollens and heavy wash cottons too. And our revolutionary Fresh Air Dryer combines efficient tumble drying with the freshness of line drying – truly the best of both worlds.

Hotpoint – The UK's most trusted domestic appliance brand — 3 years' running.

Satin Aluminium

Opposites attract, so they say. Cool Satin Aluminium and glowing dark or blonde wood are a case in point. The contemporary and the classical fuse seamlessly – with the help of a little glass, a dark slate floor and soft grey wall tiles.

Colour and Style

Zircon Silver

Metropolitan. That's the word that springs to mind. Combined with sparkling chrome and frosted glass accessories, Zircon Silver wouldn't look out of place in a Manhattan loft. Muted paintwork and clean, white tiles add to the sophistication. And a warming touch of wood completes the picture.

Polar White ▼

The beauty of Polar White is the freedom it gives you to be bold with everything else. It's the perfect partner for brightly coloured cabinets and accessories. And sits comfortably with warm woods and sleek metallic finishes. A flexible basis for a lovely new kitchen – whatever you have in mind.

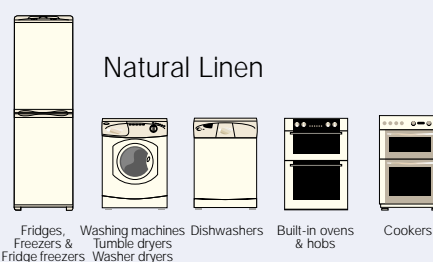

Co-ordinate your kitchen

Choose Hotpoint and you choose co-ordination. You can match the design, style and colour of all your Hotpoint appliances to ensure your kitchen looks as good as it possibly can. Take a look below and you'll see the different appliances and colours you can choose from.

For specific colours on each model see the colour swatch featured against each individual product.

Natural Linen ▲

For a soft, homely feel, go with Natural Linen. Its comfortable, creamy tones blend beautifully with the traditional: wooden cabinets, fresh or earthy outdoor colours, textural worktops and floors. And adding a contemporary twist is just a matter of choosing the right accessories.

Technologically speaking

When it comes to research and development, a lot goes into a Hotpoint automatic – as you might expect of the UK's No.1. We've a reputation for constant technological innovation and uncompromising performance to maintain – and countless loyal customers with busy lives to lead who want nothing but the best.

Advanced Total System

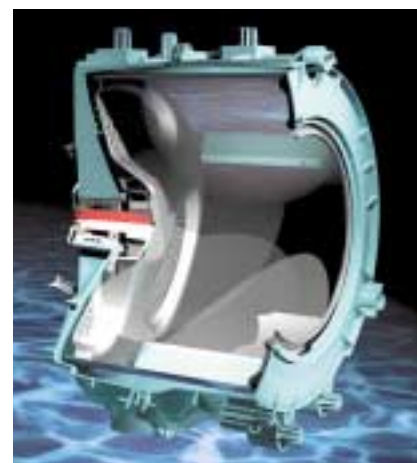

Delivering the best 'A' Wash Performance using less water, energy and detergent

- 53 litre drum – takes a really large 6kg load
- **Powerstream™ Wash System** – increased intermittent agitation five times during the wash cycle drives the water through the clothes to give the best possible wash performance
- Larger detergent dispenser – multi-jet water distribution with increased efficiency delivers maximum detergent to the wash
- Load sensing – ensures correct volume of water for each load
- 2-way drum action – reduces tangling of clothes, providing an improved wash performance
- Intermittent tumbling – helps to reduce creasing
- Unique V-shape outer drum means less water needs to be heated
- Sump ball valve ensures maximum detergent use
- Drum Lifter design for more effective showering action and maximum wash efficiency
- 3,300 holes in the inner drum ensures superior washing, better efficiency rinsing and spin drying
- Auto Creasecare to reduce creasing and make ironing easier
- Profile spin for maximum water extraction

Our Biggest Drum Ever

A massive 53 litre drum that can wash a 6kg load, fit comfortably within standard kitchen cabinetry and still give the best possible 'A' Wash Performance.

26 Minute Fast Wash Programme

A technological enhancement that means you can now wash a 1kg load in just 26 minutes.

Easy Iron

Ironing becomes that much easier with our Auto Creasecare function. It prevents excess creasing on any wash programme by gradually reducing the water temperature towards the end of the cycle.

Auto Half Load

Hotpoint's washing machines are so clever they automatically adjust the water level for any size load to help save time and money when washing smaller loads.

Ease of Installation

Spring loaded feet provide accurate levelling when installed in your kitchen. And using their unique height reduction kit, all Hotpoint's appliances will even fit under low work surfaces.

Easy Loading

A 300mm door aperture, the widest possible, as well as 180° door opening means easy loading and unloading.

Problem Alert!

A Self-Diagnostics system tells you, via LED indicators, if you haven't closed the door properly, the load is out of balance or if there is a problem with the water supply.

Intelligent Care System

The Intelligent Care Microprocessor System makes constant checks on your machine's performance to ensure the load does not go out of balance or stop in the middle of a programme. By constantly monitoring the temperature of the incoming water, it can also prevent damage to clothes.

Energy Efficiency Recommended

This recommendation is an Energy Savings Trust initiative backed by the government. The logo is only found on products that have been carefully selected for their energy efficiency.

'A' Wash Performance at 40°C

New technology has enabled Hotpoint to deliver the best 'A' Wash Performance at just 40°C on all Aquarius and Ultima models with variable temperature – giving you greater wash performance at lower temperatures more efficiently.

No Waste

The extra large detergent dispenser with its unique spray system is easy to fill and makes sure the maximum amount of detergent is delivered to the wash.

Wash Performance

Drum Lifter design for more effective showering action and maximum wash efficiency.

Powerstream™ Wash System

Hotpoint's Powerstream™ Wash System drives water through the clothes by increasing the speed of agitation to give the best possible 'A' class wash performance.

Easy to Use

All Hotpoint's machines have easy to understand numbers and graphics which correspond to those on your clothes label.

Flood Protection System

All machines have flood protection to minimise the risk of serious flooding.

Built-In Protection

Hotpoint's Out of Balance Protection System ensures the machine does not spin when the load is unbalanced. If the load is not evenly distributed the machine will try to spread it around the drum to minimise vibration and prolong the life of the machine.

Self-Cleaning Pump

No need to clean messy filters with our self-cleaning pump mechanism.

Soft Touch

Unique soft touch non-slip material gives you a more comfortable feel when opening the door or detergent dispenser.

Special Needs Controls

Braille and arthritic controls are available for all Hotpoint laundry products. Tactile Braille controls incorporate the use of a single stud or dot to mark a programme or setting. We can also supply an audio tape or CD version of the instruction booklet which explains where the various controls are found and the functions to which they relate.

A multi-purpose arthritic handle is also available for control knobs and we can even supply a version that works on our top of the range push-button models.

For further information please contact the Service Centre on 08709 066 066.

Persil

Hotpoint recommends that you use Persil and Comfort in your wash. Use our quick guide to help you choose the right product.

Persil Performance

Perfect for keeping your whites white. Biological enzymes remove even difficult stains at low to medium temperatures.

Persil Colour Care

Formulated to help keep your clothes bright, wash after wash. Colour protectors help colours stay vibrant.

Persil Non Biological

Preferred by many people who are concerned about their family's skin. It contains no enzymes and it's dermatologically tested, leaving clothes brilliantly clean and gentle on your skin.

Persil Aloe Vera

Contains Aloe Vera extract, well known to be gentle on skin, for a touch of nature for all the family wash. It's non-biological and dermatologically tested, leaving your washing clean, fresh and comfortable next to delicate skin.

Comfort

The original fabric conditioner that gives clothes unbeatable softness and freshness. It also helps colours look brighter for longer, keeping clothes looking new.

Features

Every Hotpoint washing machine is designed to provide simple solutions to real needs. We know they're real because we make a habit of listening to our customers.

Just take a look at the features described, choose the ones that appeal to you, and select a washing machine to suit.

Ultima 6kg

Ultimate performance and the very latest technology

A, A, A

'A' Wash Performance
'A' Energy Performance
'A' Spin Efficiency
All at 6kg

Performance

Silk Wash

Our 30°C Silk Wash lets you wash delicate silk items on an extra-low temperature, gentle wash programme

Hand Wash

A cool wash with very gentle action means you can now machine wash 'Hand Wash Only' items

Multi Wash

Total flexibility to adjust any wash programme with a range of option buttons to suit your individual needs

Variable Rinses

Gives you total control to either add a full extra rinse or delete a rinse to save water

Profile Spin

Gradually steps up the spin speed for the most efficient water extraction. It means less water, less creasing and less ironing

High Spin

At 1400 or 1600 rpm you can be sure your clothes are as dry as they can be, meaning less time in the Tumble Dryer

Favourites

Tailor a programme to suit your individual requirement and store it as your Favourite. Press a single button and your stored programme is ready

Time Management

Fast Wash

Takes just 26 minutes to wash a lightly soiled small load

Cancel/Change Programme

Stop programme at any point to add forgotten items or change the programme

Time Saver

Can be used with any wash programme to save up to a third off your time

Fast Forward

Provides the option to advance the programme forward at any time to reduce the duration of the wash

Time to End

Will tell you how long the programme has left to run

Time Delay

Lets you set your programme to start up to 20 hours later to take advantage of cheaper electricity or wash at the time that suits you best

Energy

Variable Temperature

Lowers the wash temperature of any programme to give you greater flexibility and greater savings on time and electricity

'A' Wash at 40°C

Simply reduce the temperature of your 60°C cotton wash to achieve top wash performance at 40°C

Mini Load

Ideal if you want to wash a few items quickly, selecting this button uses less water and energy and saves you time

Set by How Dirty

Select a light, normal or heavy soil programme to tailor the wash programme accordingly, saving you time and energy

Look & Feel

Infobubble Display

Our unique multicoloured Infobubble Display offers visual programme progress and fault diagnosis, so it's easy to see what is happening at any stage of the wash

One Touch Programming

Just press one button for your chosen wash, press Start and the programme will begin. Nothing could be easier

Enhanced Intelligent Care System

Constantly checks on your machine's performance, prevents you from selecting too high a spin speed or a temperature for the programme you have chosen

Soft Touch

Unique soft touch non-slip material gives you a more comfortable feel when opening the door or detergent dispenser

Selectable Child Lock

Prevents little fingers from altering any options or programmes you have chosen

Aquarius 6kg

Great looks with fantastic performance

'A' Wash Performance
'A' Energy Performance
'B' Spin Efficiency
All at 6kg

Performance

Silk Wash

Our 30°C Silk Wash lets you wash delicate silk items on an extra-low temperature, gentle wash programme

Hand Wash

A cool wash with very gentle action means you can now machine wash 'Hand Wash Only' items

30°C Colour Safe Cottons

A unique low temperature programme with cotton agitation and fast spin. Ideal if you want a low temperature wash for things like kids' clothing

Extra Rinse

A full extra 14 litre rinse for when you have to be sure all traces of detergent have gone

Variable Spin

The Variable Spin lets you choose a speed to suit your load. Prevents delicates from being over spun

Time Management

Fast Wash

Takes just 26 minutes to wash a lightly soiled small load

Cancel/Change Programme

Stop programme at any point to add forgotten items or change the programme

Time Saver

Can be used with any wash programme to save up to a third off your time

Energy

Variable Temperature

Lowers the wash temperature of any programme to give you greater flexibility and greater savings on time and electricity

'A' Wash at 40°C

Simply reduce the temperature of your 60°C cotton wash to achieve top wash performance at 40°C

Mini Load

Ideal if you want to wash a few items quickly, selecting this button uses less water and energy and saves you time

Look & Feel

Progress Indicator (6 lights)

The six LED programme progress indicators will show you when the door is locked, the four stages of the wash cycle and when the programme has finished

Smooth Action Rotary Control

The programme selector rotates both clockwise and anti-clockwise with easy action option buttons

Soft Touch

Unique soft touch non-slip material gives you a more comfortable feel when opening the door or detergent dispenser

Enhanced Intelligent Care System

Constantly checks on your machine's performance, prevents you from selecting too high a spin speed or temperature for the programme you have chosen

First Edition

Excellent results for the essential wash programmes

'A' Wash Performance
'A' Energy Performance
'B' Spin Efficiency
All at 5.5kg

Performance

Silk Wash

Our 30°C Silk Wash lets you wash delicate silk items on an extra-low temperature, gentle wash programme

Super Rinse

Increases the amount of rinse water to help those with sensitive skin

Time Management

Quick Wash

Washes at 35°C for 40 minutes. It's ideal for lightly soiled garments or simply when you haven't got much time

Cancel/Change Programme

Stop programme at any point to add forgotten items or change the programme

Energy

Energy Save

Reduces the temperature of any programme by approximately 10°C to save money on a lightly soiled load

Cold Wash

Saves energy on very lightly soiled items

Look & Feel

Progress Indicator (3 lights)

The three LED programme progress indicators will show you when the door is locked, the machine is in action and when the programme has finished

Smooth Action Rotary Control

The programme selector rotates both clockwise and anti-clockwise with easy action option buttons

Ultima 6kg

The Ultima 6kg range of washing machines are for those who demand the very best. They're sleek, modern and stylish, and packed with features to save time and money. With One Touch Programming, selecting a programme could not be easier. Just press one button for your chosen wash and then press start. You can delay the programme to start at a time that suits you and it will even tell you how long it will take to finish. You get ultimate cleaning results because Ultima 6kg boasts 'A' wash, energy and spin performance – the very best at 6kg.

Great looks and fantastic performance

The best selling range of Home Laundry appliances in the UK is now even better. With a massive 53 litre maximum capacity drum and a whole host of features to make your life easier, the Hotpoint Aquarius 6kg range means high performance, stunning looks and great value.

Aquarius 6kg offers a comprehensive selection of programmes including Hand Wash for very delicate items and Mini Load for when you only want to wash a few items.

For the best fabric care Aquarius 6kg has 2-way drum rotation to reduce tangling of clothes and a Reduce Creases button which means your clothes need less ironing.

To save time you can select Time Saver that will reduce the running time of any programme by up to a third. The Programme Progress Indication lights will even tell you the stage you are at in the wash programme. Furthermore, Aquarius 6kg with our Advanced Total System delivers 'A' Wash and 'A' Energy performance at 6kg.

Washer Dryer

If space is at a premium it makes sense to choose a Hotpoint Washer Dryer. What could be more convenient than opening the door to find freshly washed and dried clothes? You'll find a whole range of useful features, including Fabric Care to look after those really special clothes, Time Saver, and an Infobubble Display to give you all the details of the washing and drying in progress.

All Hotpoint Washer Dryers have a unique condenser and fan drying system to get most cotton loads ready for ironing in 45 minutes or less. Using one of these appliances is simplicity itself. With a 5kg wash load and so many helpful features, a Hotpoint Washer Dryer is the solution to your space problem.

Features

- **One Touch Programme Selection**
A single soft touch button selects your wash programme.
- **Infobubble Display**
Check your wash selection on screen.
- **Multi-Wash Programming**
Alter your programme selection to meet your individual wash needs.
- **Intelligent Care**
Takes care of your clothes by monitoring your machine's performance.
- **Aquarius Wash System Plus**
Saves water, electricity and detergent for your cleanest wash.
- **Fabric Care**
Protects your delicates with a gentle wash, rinse hold, and a gentle spin.
- **Time Saver**
Can be used with any wash programme to save up to 25 minutes.
- **Bioprofile Wash**
Extracts maximum wash performance from your biological powder.
- **Profile Spin**
Less water, less creasing and less ironing.

Tumble Dryers

Hotpoint's tumble dryers offer something for everyone with a choice of traditional 5kg or 6kg vented dryers, the flexibility of condenser drying, or a 3kg compact dryer for the smaller household. Our new 6kg dryers will dry a complete 6kg wash load, ideal for moving the wash straight into the dryer. Packed full of features, there's sure to be one to suit your needs.

Features

- **Condenser Dryers**

The ultimate in convenience with no need for a vent hose. Condenser dryers have a sophisticated internal condensing system which takes the moisture from clothes into an easy-access 3.6 litre reservoir. They take a large 6kg load and feature full metal doors that are reversible for easy loading and unloading.

- **Logic Sensor Drying**

3 pre-set 'set and forget' drying programmes for both cottons and synthetics – dries your laundry perfectly to either cupboard dry, hanger dry or ready to iron.

- **Two Heat Settings**

High and low for different fabric types.

- **Sensor Drying**

'Set and forget' drying programme – senses when the laundry is dry and automatically switches to a 10-minute final cool tumble – saving you both time and money.

- **Time Delay**

Up to 12 hours, to make the most of off-peak electricity.

- **Reverse Action**

Giving faster drying times and less creases.

- **Airing Programme**

A 20-minute programme that will air clothes in between washes.

- **Aquarius Drying System**

An enclosed airflow system that delivers hot air more efficiently, saving time and energy.

- **Easy Iron**

A 10-minute programme that relaxes fibres in previously washed and dried laundry to make them easier to iron.

- **Fresh Air Drying**

Line dry freshness from a tumble dryer – see page 25 for details.

- **Creasecare System**

Periodically tumbles the clothes to prevent creasing after the drying cycle.

- **Soft Touch**

Unique soft touch non-slip material gives you a more comfortable feel when opening the door.

Fresh Air Dryer

Hotpoint recognises that, for some customers there's never been an alternative to line dry freshness, with a tumble dryer simply being something to fall back on during bad weather.

Now everything has changed with Hotpoint's new Fresh Air Dryer patented design. As the name suggests, this revolution in tumble drying offers all the benefits of a conventional tumble dryer together with the freshness of line drying.

- Fresh air is drawn into the machine from the outside at the end of the drying cycle
- Mixes with the tumbling load
- Giving your laundry the freshness of line drying

It can also be used on its own as an airing programme to give clothes a quick freshen up between washes.

Hotpoint recommends Svit, a dry-cleaning system for use in tumble dryers and washer dryers that is perfect for dry clean only and handwash garments. With its protective bag, moistened 2-in-1 cloth for cleaning and refreshing plus a stain remover spray, it delivers impressive results. It's superb for removing greasy and water-soluble stains, removing odours and refreshing garments. What's more, it's endorsed by Woolmark.

Integrated Washing Machine and Washer Dryer

To give your kitchen that fully integrated look, Hotpoint's built-in washing machine and washer dryer can be hidden behind a door that matches the rest of your kitchen units. The washing machine offers complete flexibility with variable temperature and spin options, combined with the very best 'AAA' rated wash, energy and spin performance. And if space is at a premium, our 1600rpm washer dryer can be a valuable addition to your range of appliances.

Integrated BWM12 Washing Machine

- Fits easily behind furniture door
- Reversible furniture door gives installation flexibility
- 1200 spin
- Variable spin from 600 – 1200rpm
- Variable temperature control
- No-spin option
- Buttons – click in and out for ease of use
- 'A' Wash Performance at 40°C
- 5kg wash load
- Quick wash
- Intensive wash
- Time delay
- Hot and cold fill

Top Loader

If your kitchen has limited space for a washing machine, or you simply dislike bending down to do your laundry, Hotpoint has the answer.

At just 400mm wide, our top loading automatic is slim enough to fit into a small space, but still large enough to take a 5kg load. Its horizontal axis drum provides 'A' wash performance, 'A' energy consumption and low water usage. Not only that, but it's easy to use. You'll find the large drum always stops with the opening at the top, making it easy to load and unload your laundry, and the clearly marked, angled control panel makes programming simplicity itself.

If you're looking for front loader performance combined with top loader convenience, the Hotpoint 'slimline' top loader is the ideal solution.

Top Loader 1000 WMTL80

Ease of Use

- Only 400mm wide
- Clear view control panel
- Easy, wide access to drum
- Easy to fill and easy to clean, 4-compartment detergent dispenser with level indicators
- Folding wheel for mobility combined with stability when machine is in use

- Quick Wash
- Hand Wash
- 30°C silk wash
- Wool programme
- Auto half load
- 12-hour time delay

Performance

- 5kg load
- Variable spin – from no spin to 1000rpm

Features

- Variable temperature
- Reduced and extra rinses
- Rinse Hold

Made for Hotpoint in Italy.
BEAB approved.

After Sales Care

Hotpoint's After Sales Care is second to none. We are Europe's largest provider of service care to the domestic appliance industry and take pride in the quality and effectiveness that we deliver to you, our customer. Here are six good reasons to choose the UK's most popular and trusted manufacturer.

Satisfaction Guaranteed Or Your Money Back.

In the unlikely event that a technical problem occurs that cannot be resolved, we'll either replace your machine or give you your money back. This guarantee is valid for 90 days from the date of purchase.

Free Five Year Parts Guarantee.

All parts are guaranteed for five years. We only ask that any replacement parts are fitted by our engineer. During the first year, our engineer's time and labour are also free.

Call The Experts.

We have over 1,250 fully trained engineers to service our products, which means that there's always an engineer near you to provide a fast, local service. You can book a service call with us at any time, 365 days a year.

Service At Your Convenience.

In most cases we can give you the choice of a first or last service call, morning or afternoon, or even a Saturday morning appointment. We believe in offering you service when you find it most convenient.

Hotpoint Service Care.

You can take out one of our extended warranties to cover any repair costs that may be necessary. If you have more than one Hotpoint appliance, we can provide Kitchen Cover to take care of all eventualities.

Extra Facilities For The Disabled.

We have a range of special accessories to assist the blind, arthritic or disabled in using the majority of our appliances.

You'll find full details of our guarantees and After Sales Service in the instruction books included with all Hotpoint appliances.

Hotpoint Service:

You can call us Mon-Fri 8am-8pm, Sat 8am-6pm, Sun 10am-4pm on **08709 066 066** or visit **www.theservicecentre.co.uk** anytime.

In accordance with its policy of progressive product design and environmental protection, the company reserves the right to alter specifications and use quality recycled components.

Every attempt has been made to ensure an accurate colour representation of the appliances and features illustrated, but due to the limitations of the printing process, there may be some slight variations.

The full terms and conditions of our After Sales Care are included in the instruction books enclosed with all of our appliances.

All offers of guarantees and servicing arrangements apply to the UK only. For overseas, please refer to your local dealer.

We're here to help

If you have a question about any Hotpoint product, simply pick up the phone for the answer. We can give you information about individual models, ranges and specific features. We can even tell you the name of your nearest electrical store.

Our Information Line is open from 8.30am to 12.30pm and 1.30pm to 5pm Monday to Friday.

For more information on any Hotpoint product or feature call:

08701 50 60 70

during the above hours

or visit: www.hotpoint.co.uk
